The Revolutionary Tree Staking System

designed by Landscape Maintenance Contractors

Featuring our 3-Stake System using one of each of our product types

Ask about our 2- and 4-Stake Systems

Installation Instructions

- Place Cross Brace on ground and use as Template for where to place the stakes. Mark, then remove cross brace and install stakes.
- Braces and Sleeves slide over tree stakes in chosen order.
- Position Sleeves. Tighten Hex Screw.
- Open Hook & Loop Tie.
- Place Tie around tree trunk and re-connect to Hook & Loop.
- Do not over-tighten. Allow for trunk movement.
- Adjust as needed over months of growth.
- Remove System within 24 months.
- Re-use System for another tree!
- No nails
- Simple installation
- Made in USA
- Member SF Made
- Certified San Francisco LBE

NOTE: Our CS Sleeve and Corded Rubber Tie is recommended for sites with high wind, potential vandalism, and for minor righting of trees: see <http://www.jamesurban.net/trees/> and <https://hort.ifas.ufl.edu/woody/pruning.shtml>

The Greensleeves System is Reusable

- Use for 2", 3" round, 1 1/2" x 1 1/2" wooden stake—Model 100S, 1 1/2" schedule 40 galvanized pipe—Model 100. Stakes should be driven a minimum of 1ft. below bottom of rootball
- Adjustable Cross Brace for 15 Gal., 24", 36", 48" Box trees ensures the stakes are placed outside of rootball
- Easy vertical and horizontal adjustment of Sleeves and Ties
- Tie length is customized to each Cross Brace for 15 Gal., 24", 36", 48" Box
